Ann Farrugia Toddler 1 Staff

Sarah Micallef Toddler 2 Staff

Leanne Labela Preschool 1 Staff

Suman Takhar Preschool 1 Staff

Morning Screening

We will ask our staff and families questions about their health and well being.

We may check temperatures and make sure everyone is feeling good to start their day.

Our dedicated Screener will bring your child safely to their classroom and teacher

Safety Precautions

- We will use a barrier like a receiving blanket to carry children and provide them comfort
- Children and staff wash their hands immediately upon entering our building
- All clothes and backpacks will be washed and remain in the centre for the time being.
- Children will stay in their own classroom and play in sections of the playgrounds with the same peers and teachers.

Our Environments

- Our classroom environments have changed in little ways
- We will always provide all interest centres, creative work, sensory experiences and encourage curious minds
- The children have more space to create, play and explore

- To encourage a healthy environment, each child is provided with their own creative boxes with their names
- Sensory experiences in individual trays with all the same materials we have always enjoyed!
- We clean our environments/toys and materials several times daily

DISINFECTING/SANTIZING

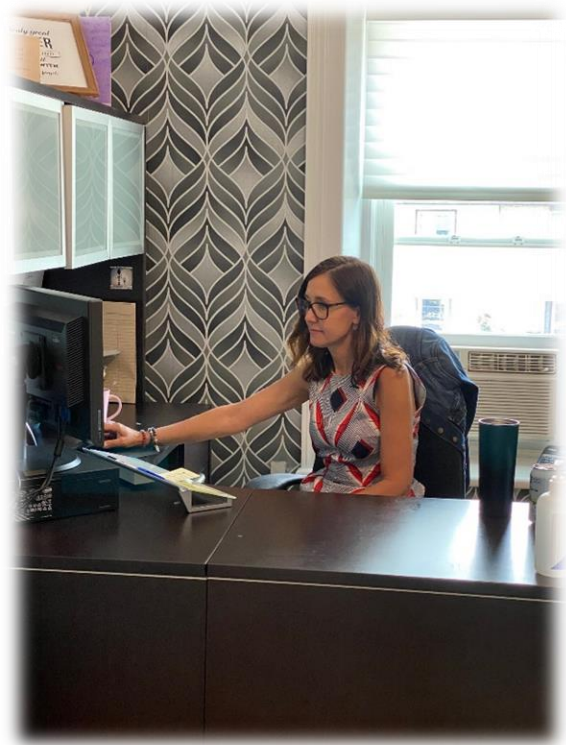

- We abide by disinfecting and sanitizing protocols. The protocols can be found at: <http://www.edu.gov.on.ca/childcare/child-care-re-opening-operational-guidance.pdf>
- Using a three step method for our table, chairs, bathrooms beds/linens and playground equipment several times per day

We are dedicated to our four foundations of learning.
We will continue foster our children and families wellbeing,
expression, sense of belonging and engagement in all areas of
development.
We look forward to seeing you soon!

ALWAYS SUPPORTING CHILDREN & STAFF

Mrs. Harper & Mrs. Holland and all our wonderful support staff continue working hard to support our children and families providing the high quality care through healthy foods, supporting families through these times and making sure we all our comfortable in our new environments!
